

Seize the moment

Philips Digital Pocket Memo® 9220

This looks like the start of a beautiful friendship! The Digital Pocket Memo® 9220 is always ready to take your dictation. Thanks to the built-in 64 MB memory and the DSS file format, you can record up to ten hours in perfect sound quality.

Its ten dictation folders allow easy organization and archiving of files. You can also transfer files directly to your PC via a USB cable for further editing and professional transcription.

DIGITAL SPEECH STANDARD

PHILIPS

Digital Pocket Memo® 9220

Key benefits of the Digital Pocket Memo® 9220

- Push buttons allow quick, efficient recording control
- Up to 15 hours recording time
- DSS file format, the industry-standard file format for digital recording devices, offers minimum file sizes while maintaining crystal clear sound quality.
- Ten dictation folders for easy organization and filing of dictations
- End-of-letter index marks a dictation file as complete and automatically generates a new file (this button can also be disabled)
- Voice-activated recording gives users hands-free dictation
- Insert, overwrite and delete functions allow full editing and continuity of dictation (these buttons can also be disabled)
- Backlit LC display makes reading the display in poor light conditions easier
- Three-level adjustable microphone sensitivity can be set for conference or close-range recordings
- Easy, automatic download of dictations to your PC via USB connection
- E-mail/FTP function can be used for manual and automatic dictation transfer

Additional benefits of the Digital Pocket Memo® 9220

- On/off switch avoids unintentional operation
- USB mass storage device: The internal memory can be used to store data as well as voice recordings
- Double-sided aluminum casing provides extra durability
- Volume control
- Two-color LED indicator shows record status
- LC display shows creation time/date, size of the dictation file, operating mode and battery status.
- Warning tone signals low/full memory and low battery to avoid dictation loss
- Standard play/long play modes of recording suit user preferences
- Standard USB audio device allows direct dictation to your PC
- Power save mode: Sleep mode activates after four minutes of inactivity, then switches off after two hours
